FRONT OF HOUSE

Latest Trends in Food Display & Live Cooking

THE BAUKASTEN

There are many modular systems, but a Baukasten is much more than just modular. Like Lego, for example. Children are already able to create an unlimited number of creative worlds from Lego bricks. They do not have to be particularly gifted or skilled to do this. The standardised bricks can always be stacked precisely. For nothing is accidental with a Baukasten. Everything follows a system, like our livecookintable® Baukasten. The creative power of a Baukasten is still underestimated. Modular systems like our livecookintable® Baukasten are based on standardised processes and on standards. This makes them the real driving force of progress, diversity and creativity.

DESIGN + ENGINEERING

Norbert Fischbach comes from cooking to design. He is no stranger when it comes to dealing with food professionally. In his early career he continued the family tradition as a Pastry Chef in Michelin Stars awarded kitchens. Simone Heckmann who comes from Architecture to cooking, brings in her well founded training and her experience as an Architect and Designer. Product Design, Engineering and Room Planning are her core competences. The Team of MEC2 is livecookintable® - together with our distributer Andy Mannhart - and we all love what we do!

Andy Mannhart

MORE CREATIVITY

Standards promote creativity and do not reduce diversity. People who apply standards outstrip all those who do not do so and will have more success. For fixed standards, it means that their success can be reproduced and can be applied by everyone.

OUR BRAND VALUES

01 livecookintable features experience, interaction and communication.

02 The timeless product design: Form follows function, Form follows emotion.

03 The high brand awareness. livecookintable is distinctive.

04 livecookintable is indisputable the leading international brand in design and engineering. MEC2 won numerous design awards for its contemporary design language.

05 The brand reputation. livecookintable has a credible product biography. The only brand following no „copy and paste“ strategy from the beginning. Genuine product range, characterized by what we call the distinctive livecookintable DNA.

Deutscher Designer Club

DESIGNPREIS 2009

NOMINEE

Unique selling points: 18 good reasons

01 Highest value for money! 50% less livecookintable units needed as against the competitors while ensuring the same pax capacity.

02 The table design provides the widest possible variety of uses.

03 The unique Baukasten enables you to create all F&B concepts out of one single system.

04 livecookintable designs the room! A contract furniture with cooking function, not just a buffet or a cooking station.

05 Levelling the heights: Perfect work and presentation level.

06 We are technical buffet furniture designers with its own device engineering.

07 Specially designed equipment, designed exclusively for livecookintable and extremely flat built.

08 The 2 in1 principle: two functions in one device to reduce the number of devices.

09 Free positioning in the system without restrictions, always oriented to the daily needs.

10 Our 360° food logistic concept significantly increases the pax capacity per hour per table.

11 All devices and table segments are Gastronorm-sized. Only one system for back-of-house and front-of-house.

12 Maximum storage space for mise-en-place under the tables. Plenty of space for hot and cold cars and shelves.

13 Intuitive user interface, no installation service needed, no tools required.

14 Smallest possible packaging, unique storage and transport logistics through bags and wheeled cases.

15 Easy change of all decors for all surfaces, can be updated at any time at very reasonable prices.

16 Most efficient, autonomous air cleaning in the market. 5 years maintenance free. In-house filter change not requiring professional service.

17 No expensive services: Easy in-house care, maintenance and cleaning.

18 The average number of warranty cases is between 1% and 1‰ only.

- Washable by hand
- 1 Year warranty
- Technical properties: long-lasting, tear-resistant, abraision-resistant, lightfast, flame-retardant BS5852 0+1

Video

F6494095 sharkgrey

Outdoor: High-quality upholstery material with a classic cowhide grain. The material is especially used in sophisticated outdoor and contract applications. It is particularly well-suited for boats and yachts.
Palette spans 11 trendy colours.

F6495017 black

Outdoor: It reduces the heat build-up of the surface when exposed to direct sunlight. The nano coating makes the material extremely weather, UV, and dirt resistant.
Palette spans 12 trendy colours.

F6411214 black

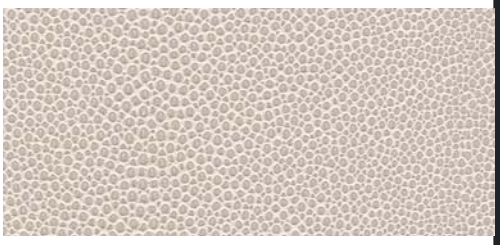
Indoor: high-quality upholstery material with a textile look. The material is notable due to its compliance with the rigorous B1-flame resistance standard.
15 trendy colours, pleasant feel, extremely detailed embossing make it a genuine premium product.

F6411228 gold

Indoor: high-quality upholstery material with a delicate textile structure. The material looks elegant and classy in trendy metallic shades. It meets the rigorous B1-flame resistance standard.
Palette spans 16 trendy colours.

F5076036 pearl

Indoor: Pearl fascinates with its unique manta ray look. Its special allure results from its interesting colour contrast and a fine play of matt and shiny areas due to grain valleys and lacquered peaks.
Palette spans 13 trendy colours.



F6800041 birch

Indoor: High-quality first generation nature base material. It has a surface that feels very pleasant with a characteristic leather grain. As is the case with its natural prototype, the depth of the grain valleys varies, underscoring the natural impression.Palette spans 17 trendy colours.

F5076088 ivory

Indoor: a high-quality upholstery material with an attractive seam look, which gives the impression of being handmade. It has crisscrossing virtual quilted seams that form classical rhombi, which give the material a special elegance and sophistication.
The feel is particularly pleasant.
Palette spans 8 trendy colours.

livecookintable recommends
360° Food Logistik

020368 L-Transport Cart
015909 U-Transport Cart
032170 Thermoport 1400U
032171 Thermoport 1000 K-Unit new

Perfect logistics require a well-founded system. Functionality and material perfectly matched. Mise-en-place in GN, food transport in suitable carts, storage under the livecookintable, GN-compatible devices and table segments. That's livecookintable 360° food logistics. Our recommendation: Rieber Thermoplate, Revol and others, developed a dry system that only works with the natural moisture of the food. Disadvantages of chafing dishes can be avoided.

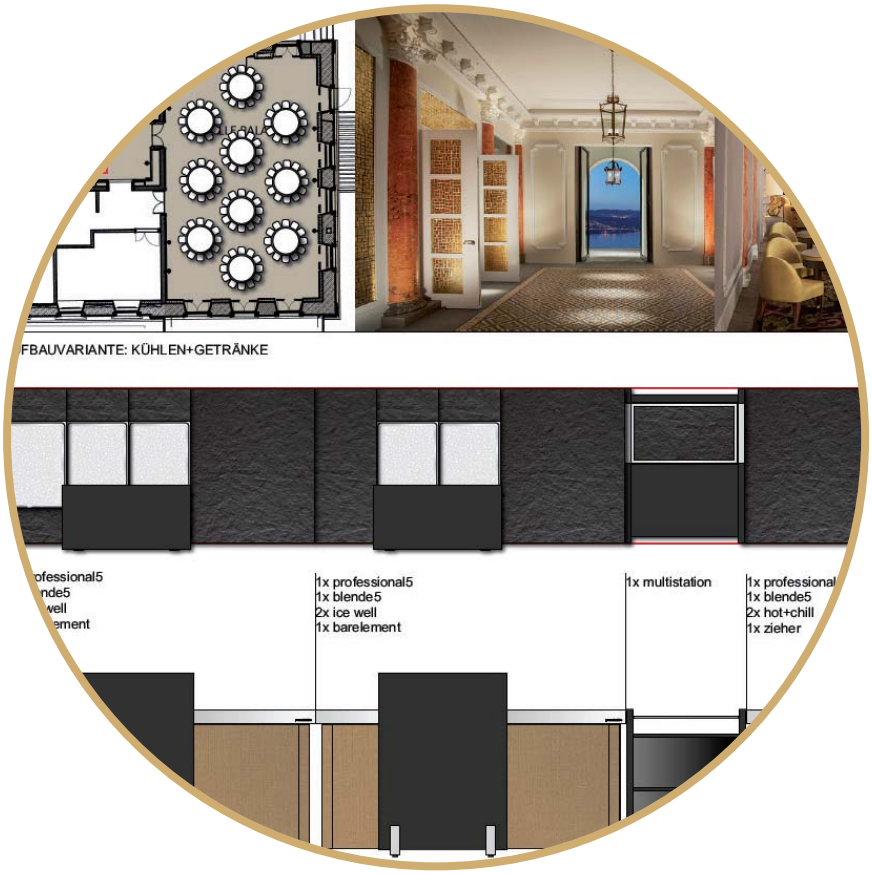
Andy Mannhart

Architecture and Design

Planning on a scale.
How is the buffet connected to the kitchen?

Where is the service running?
How does the guest move?

The plans of our designers and architects are not colorful pictures, but solutions that are no question leave open.



3D Planning Studio:

We define the best solution in price and performance.

We propose individual designs, suitable for every environment.

We visualize with our 3D studio.

Do Design Yourself!

Augmented Reality Application for the free configuration of livecookintable buffets and live cooking stations in the real customer environment of the respective guest room. And this in original size.

livecookintable® Augmented Reality.

The App is available for Android and IOS Devices. Download the App from your App-Store. Allow the application to use the camera. From the app menu, you can print out the needed tracker. Place it in your room on the floor. If you now capture the tracker with the app, you can see livecookintable rendered in your room. You can now configure your buffet station and your live cooking station according your needs.

Please print out the tracker in the original size of 1950 mm x 700 mm to see the rendered livecookintable in original sizes.

livecookintable Website

Available content: Many design examples in the lookbook, planner documents for download, explaining video tutorials and all user information, eg manuals and data sheets.

BRENNWAGEN
Brennwagen

Brennwagen
- Forging a Legend

Formula 1™ racing meets BBQ innovation – and a passion for culinary excellence gets a new name: Brennwagen. Brennwagen lives up to exacting standards and the highest expectations for mobile outdoor catering. In design. In technology. In sheer power. Enough to fire up the real passion of any BBQ connoisseur.

An idea born on the race track. Where a Formula 1™ engineer lived his Professional passion for motorsports. A passion for barbecues took him from petrol fumes to smoking charcoal. To Brennwagen. The end result: Record performance. In every BBQ challenge. The Brennwagen GT series gets BBQ fans and design aficionados fired up. Every time.

Buffet-Tables to keep food warm or cold

nesting function | height adjustable | all tables on wheels

mobile
buffet solutions

Video

VENTA by Büchin Design developed an elegant buffet furniture range for the high demands of the hotel industry and for exclusive events. It is equipped with a range of technical features to keep dishes hot or cold.

We offer exclusive buffet tables with integrated devices, which are installed below the table-top and are almost invisible. The need for a clean and clear table surface is not affected by this functionality.

Buffet-Tables to keep food warm or cold

modular system | trolleys for storage | variations of colour

The modular buffet table system STAGE_80 can be assembled and disassembled in just a few easy steps, without the need for any tools.

[LxWxH]: 1800 x 800 x 840 mm
height adjustable: 920, 1000, 1080 mm
weight: 75 kg
features: 4x field induction (4x 750 W, 230V, 50Hz)

The new generation of keeping food warm on a buffet table. A wonderful and decorative surface to place the pots and pans directly on the table-top. Only a thin silicone mat has to be placed between the table surface and the pot. This mat avoid scratches and the movement of the pot. Additionally the mat helps to keep the surface protected in case of overheating the pot.
*silicone mat included

Item No.: 035238

[LxWxH]: 800 x 800 x 760 mm
height adjustable: 840, 920, 1000 mm
weight: 80 kg

features: multifunctional well Hot-Cold with lit (two pieces), material: compact panel, 10 mm (Bain-Marie: adjustable from 30°C up to 110°C / static cooling: up to -5°C, max. ambient temperature 25°C), base: steel, powder-coated, profile: 40 x 40 mm, table-top: compact plate, 10 mm, table height adjustable: 840, 920, 1000 mm, CW unit: GN 2/1, 230V, heat ouput: 1800 Watt, coolant: R600a, cooling output: 140 Watt

BAIN-MARIE

VENTA presents a unique, mobile furniture to keep food cool or hot. new

The BAIN-MARIE has two modes: cooling up to minus 5°C or heating to a maximum of 110°C. The size of 2 GN allows to place two 1/1 GN inserts in the well.

The BAIN-MARIE has two lits manufactued in material „compact panel“ to close the well and allows the usage as a standard table.

COLD & HOT

-5°C AT YOUR FINGERTIP +140°C

THE COMFORT COMBI PLATE (CCP) IS MADE OF A MULTILAYER MATERIAL WITH AN INTEGRATED CHANNEL FOR COOLING AND A PANEL HEATING FOR KEEPING WARM

- Adjustable temperature range from -5°C to +140°C
- Plate made of a multilayer material with s/s surface
- Temperature fluctuations are compensated by a heat-controller
- Uniform and constant temperature across the entire plate
- Universal buffet landscape – no conversion needed

- Cooling fluid R600
- Stainless steel body
- Plug-in system
- Plate available in all the following RAL colours

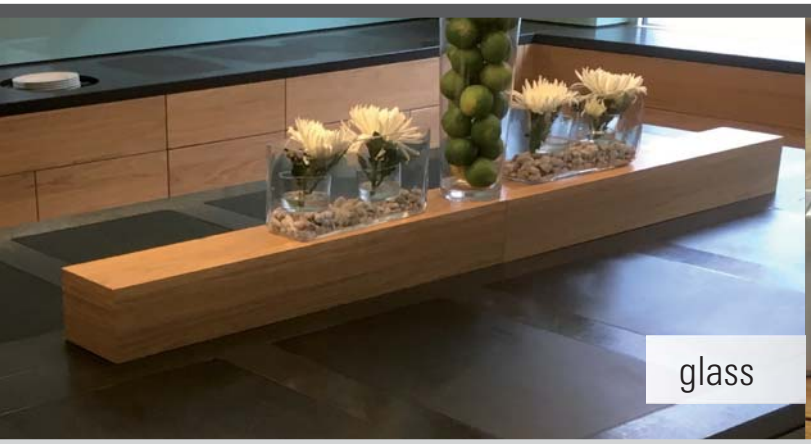
Gastros SWITZERLAND

Induction Undercounter Solutions

InductWarm® - The elegant buffet solution.
Simple to use, in premium design.



- Ease of use
- Premium design
- Energy efficiency
- Safety
- Food quality
- Temperature control

Customized Built-in and Undercounter Induction Technology

Your advantages

- Freedom of surface selection: **stone, wood** or **glass**
- **Seamless high technology**
- **Multifunctional**: use it as banquet, conference or serving table
- Easy-to-clean counter due to **flush mount integration**
- **Compatible** with any induction compatible tableware
- **Safety**: Heats only the metal coated dishes and not the counter tops
- **Easy operation** with front mounted control panel

Video

Gastros SWITZERLAND

Andy Mannhart

InductWarm® 130 Built-in and Undercounter

- Highest level of **individualization**: buffet tops from wood, stone, glass can be used, available in different colours and sizes
- **Multifunctionality**: almost invisible the InductWarm®130 can be mounted under different tops (10 - 13 mm) and therefore it can be used for various occasions: as a conference table, as serving table etc.
- **Design**: if the dishes are removed from the induction surface, you get an elegant, smooth top; with wood even jointless top
- Highest **energy efficiency** due to its ability to run up to three devices with only one single 230V/10A or 16A plug
- Especially **intuitive and immediate operation** with the integrated touch panel or external control unit
- **All-round safety**: the InductWarm® technology heats the metal-coated dish and not the counter surface (only reflection heat is possible)
- **Best ventilation** due to an integral cooling fan on the device bottom

the Mounting set 029372

InductWarm® 200 Built-in

- **Field induction** : Six induction coils with three individually adjustable warming zones which allow highest level of flexibility regarding the sizes of the used dishes
- **Modern design** with the combination of high-grade steel and black glass-ceramic top, usable with matching porcelain
- 1 device only; **easy plug & play**, no putting together from single components needed
- Highest **energy efficiency** thanks to induction technology offering 4 different temperature levels, using just 1.0kW
- **Intelligent temperature control;** the device measures the temperature within the pot (not directly at the induction field) and adapts constantly the energy given in. A constant temperature level is guaranteed, according to the selected temperature level
- Especially **intuitive and immediate operation** with the integrated touch panel with locking function and remote control alternatively
- **Maximum usability** at all areas - from installation to cleaning and to transport

ANDY MANNHART INDUCTION BUFFET

EXACT FOOD TEMPERATURE CONTROL WITH RTCSmp TECHNOLOGY

INNOVATION LEADER

R·T·C·S® mp

realtime temperature control system

- Available in freestanding & built-in version
- Control unit to regulate exact food temperature from 50°C to 100°C
- Option to design your individual theme buffets
- Flexibility of using buffet servers in different shapes and materials simultaneously
- Up to 50% energy saving compared to conventional induction units
- Large surface area of 80.0x40.0cm with 2 separate heating zones which can be regulated independently
- 230V/50-60Hz, 1Ph, 1.5kW, 8A

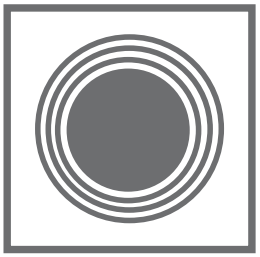
Top quality cooking ranges from Andy Mannhart

All our series are suitable for:

GAS



ELECTRIC

CERAMIC GLASS

HALOGEN

Some are also suitable for induction and are marked with the induction sign:

induction

ANDY MANNHART STANDARD

This line is made of 18/10 stainless steel and specially designed to achieve the best performance in professional cooking. Excellent resistance to corrosion. The special impact welding system of the sandwich base offers maximum robustness. The inside radius allows easy and fast cleaning, achieving NSF certification. The majority of the Andy Mannhart Standard Line are certified class induction, guaranteeing the best performance on induction.

Stainless steel

ANDY MANNHART AM COLLECTION

- Ideal for professional and intensive use in restaurants and for front cooking
- Special stainless steel with impact bonded capsuled bottom for uniform heating which results in energy saving
- Food cooks faster and stays longer hot after cooking
- Handles welded with special technique. So does not heat up during cooking
- Suitable for induction as well as for all other heating modes

HEAT TRANSMISSION

The homogenous heat transmission on the entire body makes the MULTIMETAL cookware 5 PLY highly recommended for the elaboration of sauces, chocolate, creams, etc. Extremely efficient (20% less time and energy). Highest performance on all kind of stoves. Either GAS, VITROCERAMIC, ELECTRIC and above all INDUCTION

Heat transmission on stainless steel cookware

Heat transmission on MULTIMETAL cookware

ANDY MANNHART MULTIPLY

It gets all the advantages of aluminium and stainless steel. Excellent resistance to corrosion along with a perfect heat diffusion due to its special sandwich alloy this range is the most appropriate for induction stoves.

VULCANO CUT RESIST CLASSIC

The pan with the shield: Sharp-edged spatula, tongs gripping meat, robust sponges - a non-stick frying pan must put away a lot. The Vulcano Cut Resist Classic is particularly tough. This is due to the clever construction: A network slightly elevated stainless steel webs lies like a protective shield over the non-stick coating. So the pan spared drastic experiences, it is also after years of use resistant to scratching and abrasion.

ANDY MANNHART RAINBOW COLLECTION PANS

- Attractive multifunctional coloured pans available in the rainbow colours: orange, blue, green, yellow and white
- Made of 3-ply stainless steel material, suitable for electric, gas, ceran and induction
- Perfect heat transmission
- Cook and present your food in the same pan
- Lid specially modified, it can be stored on top or on the side of the pan, equipped with a steam-release
- Special paint, heat-resistant (Whitford Technology), please handle with care
- Do not clean with hard sponge, use soft detergent

Thermoplates

Andy Mannhart

Special plates for cooking and refrigeration - from storage to preparation to production to serving without transferring food.

Thermoplates are made of SWISS-PLY multi-layer material, for energy efficient cooking, grilling and cooling with an extremely high thermal conductivity and an optimum energy transfer to food. Thermoplates are hygienic, dishwasher-safe, rustproof and suitable for all energy sources temperature range from -20°C to +250°C.

All of them are also available with drop handles.

Coated thermoplates should not be used for open-flame cooking.

Thermoplates with a material thickness of 4.0mm for grilling, frying, braising, preparing sauces, fast frying as well as keeping cool.

Without handles	With handles		Depth in cm

Stainless steel

GN pans are one of the most used equipment in the hotel kitchens. Therefore it is of utmost importance that the containers are of high quality matching the EN-standards. Andy Mannhart GN pans are made of 18/10 stainless steel, 0.8mm material thickness.

KNIVES & BOARDS

Cutting & Carving Tools, Butchery Equipment

3

HACCP (**H**azard **A**nalysis **C**ritical **C**ontrol **P**oints) is a preventive system - a risk management that provides safety for food and consumers. Through to its coloured handles, the scope of application for each knife will be visible. The international colour coding concept for the risk management looks as follows:

Red	raw meat	Yellow	poultry / cooked meat	Green	vegetable and fruits
Brown	cooked meat	Blue	fish	White	pastry / bakery

ANDY MANNHART KNIVES WITH COLOURED HANDLE

The slip resistant nylon handles can be sterilised at temperatures of up to max. 150° Celsius.

Stainless steel

HACCP (**H**azard **A**nalysis **C**ritical **C**ontrol **P**oints) is a preventive system - a risk management that provides safety for food and consumers. Through to its coloured handles, the scope of application for each knife will be visible. The international colour coding concept for the risk management looks as follows:

Red	raw meat	Yellow	poultry / cooked meat	Green	vegetable and fruits
Brown	cooked meat	Blue	fish	White	pastry / bakery

KNIVES WITH COLOURED HANDLE

The slip resistant nylon handles can be sterilised at temperatures of up to max. 150° Celsius.

Anti allergen 3.12

Where food is being prepared, particular attention needs to be paid to safety and hygiene. The HACCP range was extended by adding a knife with special light violet handles for preparing vegan, allergen free and halal dishes, thereby responding to current developments in the food industry.

- High-quality nylon handle without any additives that could be derived from tallow/lard
- The colour supports and complements your hygiene concept
- Ideal for vegan, allergen free and halal gastronomy

010400 Conveyorised metal burnisher Goliath 2000 type B

A large number of small balls made of hardened and highly polished steel continuosly roll in a container filled with cold soapwater. The products to be polished are inserted into the steel balls mass for a few minutes. The balls smoothen and roll the scratched surface, condense and harden the metal surface by the combined pressure of the balls. This method permits the original sparkling shine to be maintained or regained by a mechanical mean. The harder and "closed" surface is more resistant to wear and oxidation.

The insertion and removal of the products is done non-stop.

Approx. 150 pcs of cutlery can be polished per filling in approx. 3 minutes, or a number of other products, such as sauce boats, bowls, casseroles, wine coolers and platters, 1x230V/50-60Hz, 330W

Following material can be polished: solid silver, silver-/gold-plated, copper, brass, stainless steel, aluminium, high gloss pewter and bronze.

Complete with:

- 70kg carbon steel balls
- 1 compartment device
- 5 knife polishing device

ALUMINIUM AND POLYETHYLENE MODULAR SHELVING

Anticorrosive – Rust-resistant shelving. Manufactured with special anodised aluminium frame providing cold and heat resistance from -30ºC to +75ºC.

Support for grossbars

Levelling feet with hidden thread, for gradient floor

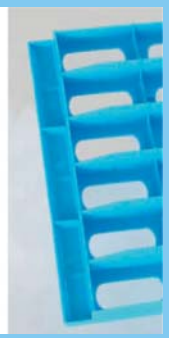
Possibility to adapt wheels Ø=12.5cm

POLYETHYLENE RACK/SHELVES, SUITABLE FOR FOODSTUFF USE.

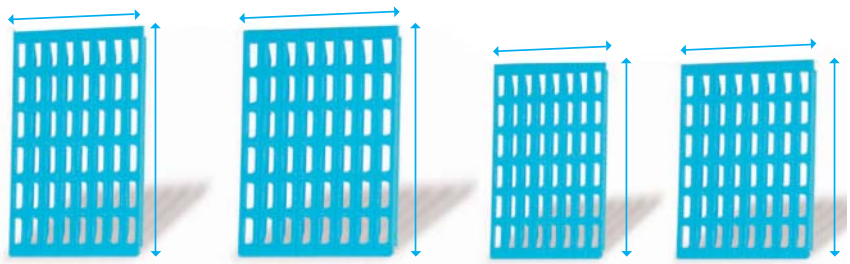
EASY AND QUICK ASSEMBLY – Very easy and quick assembly. No tools required.

ROBUSTNESS AND RESISTANCE – Very strong and resistant with a load capacity per shelf of 120.0kg and 300.0kg total shelving. Rack/shelves with a special design providing robustness to itself and providing also a very strong and resistant support on the frame.

GASTRONORM COMPATIBILITY – Adapted to GN sizes 1/1 and 2/3.
It is possible to put the rack/shelves or directly the 1/1 and 2/3 GN containers, stainless steel or polycarbonate (compatible with most of gastronorm pans in the market).



GN 1/1 (55.5cm) GN 2/3 (38.5cm)



X Y X Y

Combining rack shelves among the same group (X/Y) allows to personalize the length of each shelf

Silform

BREAD BAKING SHEETS
Silform, a combination of knitted glass fabric and food grade silicone.
Aerated mat. Formed to specific shapes of bread.

Uses: Proofing and baking various small breads on baking sheets

Advantage: Even shape of the baked product

		Dim in cm
023650	Silform 60.0x40.0cm, 18 hot dogs - éclairs	15.5x4.1x2.5
023651	Silform 60.0x40.0cm, 8 sandwich moulds	25.9x6.4x3.0

		Ø cm	H in cm
023652	Silform 60.0x40.0cm, 11 hamburger buns	12.5	1.6
023653	Silform 60.0x40.0cm, 6 pizzas	16.6	1.2

Silpat

PASTRY MAT
A combination of woven fibre glass and food grade silicone. Non-perforated material with a smooth side on which the products to bake or freeze will be placed, and a less smooth reversed side which will prevent the Silpat to slip from the tray.

Uses: Replaces silicone paper to bake or freeze fluid or soft pastry doughs on baking sheets (meringue, cookies, chou paste, croissants, sugarcraft)

Advantages: Lasting, non-stick, hygienic

		GN size	Dim in cm
023660	Pastry sheet/baking mat SILPAT		60.0x40.0
023661	Pastry sheet/baking mat SILPAT	2/1	64.0x52.0
023662	Pastry sheet/baking mat SILPAT	1/1	53.0x32.5

Silpain

BREAD BAKING MAT
A combination of woven fibre glass and food grade silicones. Open mesh.

Uses: Proving and baking bread of all shapes and sizes, especially effective for baking frozen dough

Advantages: Can replace the recoating of a flat metallic tray

		GN size	Dim in cm
023671	Bread baking mat SILPAIN	2/1	64.0x52.0
023670	Bread baking mat SILPAIN		58.5x38.5

Baking sheets

Andy Mannhart

Alusteel: Is a special strong steel plate with an aluminium coating on both sides. The sheet surface is non-rusting.

Peraluman: Special aluminium alloy. Absolutely non-rusting, therefore suitable for storing goods in refrigerator. Very high quality sheet

Aluminium: Baking sheet with good baking results and non-stick performance. Non-rusting - but tend to oxidise

Non-stick: Baking sheet with good baking results and non-stick performance. Non-rusting

Blue steel: The sheets need to be greased before baking. Tend to rust easily - must be kept dry and oiled

Black steel: Advised in combination with non-stick mats. Tend to rust very easily - must be kept dry and oiled

Chocolate moulds

Andy Mannhart

Polyethylene

The moulds are easy to use. Put them on the working top, spread chocolate over them, then shake lightly to remove any air bubbles. The flexible sheets allow easy removal of chocolate. Light usage

MOBILE THERMOPORTS

Completely made of rustproof s/s, highly suitable for transporting hot or cold food or for use as rolling storage stations in the kitchen and serving area. The interior is absolutely tightly welded and corresponds to the hygiene version H3 (except 1600 DU: H2), with rounded corners (water-jet resistant). Suitable for GN containers and wire shelves GN 1/1

HEATED VERSION (=U)

Air circulation heating, IP X5 protection, max. achievable temperature 95°C, rated voltage: 230V/50-60Hz, connected load 0.432kW

REFRIGERATED VERSION (=K)

Protection glass IP X3, cooling range 5°C to 8°C (when door is closed), refrigeration output 180W at evap. temperature -10°C, rated voltage: 230V/50-60Hz, connected load 0.170kW

Sous-vide is cooking "under vacuum", fresh food such as fish, meat or vegetables are vacuum-packed and then cooked in precise temperature-controlled water.
Cooking Sous-vide yields healthy and nutritious dishes with high-quality taste, preserving aroma, flavour and vitamines.
Freshness, colour and appearance remain unaltered until consumption, with a minimal shrinkage of the product.

Advantages:

- Consistent results
- Minimal shrinkage
- Extended shelf life without loss of quality
- Concentration of flavour
- Reproducible and precise
- Low energy cost
- Stress-free and efficient cooking
- Overcooking virtually impossible

PEARL

- guarantees a temperature stability of +/-0.03°C
- including a safety protection grid and strong circulating pump
- integrated timer for easy monitoring of the remaining cooking time
- vapour barrier protection (warning system for low water level)
- splash water protection

DIAMOND

Diamond has all features of Pearl, but additional innovative functions:

- pre-programmed memory keys for meat, fish, and vegetables
- straightforward HACCP data logging and calibration functions
- can be used with the core temperature sensor, with alarm when core temperature has been reached
- timers can be started separately from each other, with visual and accoustic signal

PEARL

034436	Smoking gun Pro produces cold smoke, which allows it to be used for any kind of food or liquid. As a flexible hand-held device, it is easy to use for infusion or finishing with a variety of smoky flavours and aromas. Your selection of combustibles including various wood chips, teas, herbs, spices, hay, and even dried flowers is limited only by your imagination. The all-new Smoking Gun Pro features a large robust housing designed specifically to withstand commercial use, including 4 mesh filters, hex key, set screw, 4 AA batteries, instruction book, 2 wood chip samples, 17.0x8.2x14.0cm	

034437	Set of 4 smoking chips for smoking gun 034436, 4 x 35 grammes (apple, cherry, mesquite, hickory)	

034442	The Sonicprep™ Ultrasonic homogenizer offers a wide range of techniques, such as extraction, infusion, homogenization, emulsification, suspension, degassing and rapid barrel-aging, features include, Ultrasonic processor with 0.4kW power output control to match power to the application, continuous or timed (0-15 minutes) operation, pulsed mode to minimize heat generation, broad process range from 1 ml to over 500 ml per sample, supplied with a standard titanium probe and a sound box, Generator 43.0x36.0x61.0cm, Sound Box 60.0x43.0x36.0cm, 230V/50-60Hz

"SWISS ORIGINAL - THE NEW HOLD-O-MAT 411"

LIGHTEN YOUR WORK LOAD

- Store quick fried food and breaded dishes until serving in the Hold-o-mat. (Everything is always fresh and crispy because of the dehumidifier).
- Quick searing is sufficient, the Hold-o-mat gently simmers the food leaving your grill free to prepare more dishes.

ALSO SUITABLE FOR PARTIES AND OUTSIDE CATERING

- Food ready-prepared in the kitchen can be transported in the Hold-o-mat and served warm.
- The fold-out handles ensure optimum ease of carrying in quality.

MAKE MORE EFFICIENT USE OF YOUR COMBI-STEAMER

- The Hold-o-mat provides a <cook and hold> capability.
- Meat is kept warm in the Hold-o-mat and improves in quality.

CALM ORDERLINESS AT THE SERVING POINT

- From the Hold-o-mat directly to the guest.
- Continuously prepare set menus and...let's go!

		Dim in cm

073769		Induction wok s/s Ø 36.0cm

INDUCTION COOKING UNIT

One cooking zone for induction capable pans with a base diameter from 13.0 to 26.0cm. Regulation in a range from 0.15 to 3.5/5.0kW. Electronic sauce pan recognition, with optical display for non-suitable pans. Outside dimension 38.0x60.0x21.0cm

eco

table	built-in	
073542	073543	Induction cooking unit 230V/50-60Hz, 16A, 3.5kW

INDUCTION COOKING UNIT

Two cooking zones for induction capable pans with a base diameter from 13.0 to 26.0cm. Regulation in a range from 0.15 to 3.5/5.0kW. Electronic sauce pan recognition, with optical display for non-suitable pans. Outside dimension 38.0x60.0x21.0cm

eco

table	built-in	
073744	073745	Induction cooking unit 3x380V/50-60Hz, 16A, 2x3.5kW

PASTA COOKER

Directly heated deep-drawn inner container. Thermostatic temperature regulation. With drainage valve. Suitable for use with round or angular pasta baskets, as well as for perforated GN-containers. Up to 80 portions of ready-to-cook pasta/h. Outside dimension 38.0x60.0x21.0cm

table	built-in	
073514	073513	Pasta cooker, 3x380V/50-60Hz, 16A, 6.0kW
073750		Adapting lid for pasta cooker for 3 round baskets and 3 square basket
073751		Adapting lid for pasta cooker for 6 round baskets
073752		Adapting lid for pasta cooker for 6 square baskets
073753		Pasta basket round s/s
073754		Pasta basket square s/s
073755		Pasta basket large square s/s (to be used without adapting lid)

BAIN-MARIE

Directly heated deep-drawn inner container. Thermostatic temperature regulation. With drainage valve. Suitable for GN containers 1/1 with max. depth of 15.0cm. Outside dimension 38.0x60.0x21.0cm

table	built-in	
073516	073517	Bain-marie 230V/50-60Hz, 10A, 1.8kW
073860		Adapting GN dividing bar 32.5cm

DEEP FRYER

Temperature regulation between 100°C to 190°C. Frying quantities: up to 40 portions of french fries/h. Oil container deep-drawn in one piece with the work top. Heating element can be tilted out, incl. frying basket and lid. Outside dimension 38.0x61.5x21.0cm

table	built-in	
073518	073519	Deep fryer cap. 6.0ltr, 3x380V/50-60Hz, 10A, 5.8kW
029095		Additional deep frying basket

SILOFRIT

A system for keeping food hot, with top and bottom temperature regulation. 17.0cm deep-drawn container with perforated sheet metal insert tray makes cleaning as easy as could be wished for. Outside dimension 38.0x60.0x21.0cm

table	built-in	
073522	073523	Silofrit Chip scuttle 230V/50-60Hz, 10A, 1.0kW

GRIDDLE PLATE SINGLE

Smooth griddle surface, made of special steel, with seamless transition to the internal housing. Inbuilt collection basin in the cold zone area for fat runoff. Thermostatic temperature regulation up to 250°C. Outside dimension 38.0x60.0x21.0cm

table	built-in	
073720	073721	Griddle plate single 3x380V/50-60Hz, 10A, 4.0kW
073766		Removable splash guard s/s

GRIDDLE PLATE DOUBLE

Smooth griddle surface, made of special steel, with seamless transition to the internal housing. Inbuilt collection basin in the cold zone for fat runoff. Thermostatic temperature regulation (left and right) up to 250°C. Outside dimension 58.0x61.5x20.8/21.8cm

table	built-in	
073728	073729	Griddle plate double 3x380V/50-60Hz, 20A, 2x4.0kW
073767		Removable splash guard s/s

GRILL GRIDDLE PLATE, GRILLING SURFACE 33.0x50.0CM

Grooved grill surface and smooth griddle surface, made of special steel, with seamless transition to the internal housing. Inbuilt collection basin in the cold zone for fat runoff. Thermostatic temperature regulation (left and right) up to 250°C, outside dimension 58.0x61.5x20.8/21.8cm

table	built-in	
073724	073725	Grill griddle plate, 3x380V/50-60Hz, 20A, 2x4.0kW

COMBI GRIDDLE PLATE

Smooth griddle surface, made of special steel, with seamless transition to the internal housing. Runoff in the front griddle area with teflon closure and front drainage. Thermostatic temperature regulation up to 250°C. Outside dimension 38.0x61.5x20.8/21.8cm

built-in	
073749	Combi griddle plate 2x380V/50-60Hz, 16A, 4.0kW

TABLE TOP INDUCTION UNIT GRIDDLE LINE

- Strongly built
- Equipped with the latest RTCSmp technology. Rounded edges and a smooth surface made for effective, efficient cleaning. Temperature adjustment via stepless rotary control. 7-segment display of desired and current temperature.
- Patented realtime temperature control system for temperature controlled
- Frying with non-contact measurement and real time control specially developed induction griddle plate HPCR-inox treated surface
- Temperature measurement, control and monitoring over the entire griddle surface
- Instant response to changes in temperature setting
- Electronic monitoring of the energy supply
- Temperature adjustment range: 50°C to 230°C
- Replacable grease filter cartridge
- Temperature regulator potentiometer 10kOhm and LCD display

FRONT COOKING CONCEPT (VARITHEK)

Varithek air-cleaning-system ACS (push and pull - extraction) mobile stainless steel unit for frontcooking with integrated suction system for smell, steam and fat free food preparation, with inseration niche for holding 2 Varithek-elements "V-1/1". Closed cupboard with 2 revision doors, fan motor, odour filter and integrated fat filter, switch panel with on/off switch and 4 sockets with covers (2x230V and 3x380V), 4 swivel casters with total brakes (Ø 8.0cm). Ready for connection with power cable 2m and CEE-plug (400V), rated voltage 3N AC 3x380V, 50-60Hz, connected load 11.0kW

		Dim in cm

VINOJET: THE TECHNICAL SOLUTION TO SERVE BOTTLE WINES AND CHAMPAGNE

- System: unsold wine in part-empty bottles will be preserved in perfect condition by electronic controlled vacuum.
- Unlimited number of bottles: the VinoJet is capable of preserving an unlimited number of bottles of wine.
- Running costs: the system simply plugs into the mains and a regulated CO2 supply (dual system only) and therefore incurs minimal costs.
- Safety: the vacuum/compressor pump is dry running (not oil-filled). This eliminates any problems associated with oil mists, smells or restrictions on siting.
- Operation temperature: 0°C to 40°C

livecookintable®

Mobile bar

Andy Mannhart

easy to build up | height adjustable | all tables on wheels

Item No.: 020969
High-Table: T_1 [LxWxH]: 1960 x 500 x 1080 mm
weight: 40 kg

Bar: T_2 [LxWxH]: 1800 x 800 x 920 mm
weight: 76 kg

exclusive version/high-table with glass-top
glass-top/colour range:

308	309	310	311	307	303
red	yellow	green	purple	black	white

metal frame/colours:

100	101
anthracite	champagne

compact panel:

401	402
premium white	ceramic anthracite

Item No.: 020984
Stool: (LxWxH): 380 x 410 x 865 mm
weight: 4.5 kg

The mobile bar – a design experience, with an exclusive, modern design, flexibility and versatility.

The established STAGE buffet system from the VENTA Interior range can be converted into a Mobile Bar. In place of the glass panels already part of all versions, we have added an additional table-top option to our portfolio. The compact panel is a heavy-duty plastic surface.

We use this panel both as a table-top and as a covering, which enables a mobile bar to be created from a STAGE buffet table in an instant. A front panel is attached to the existing metal adapters on the long side. The two side coverings are also attached to the front panels using special connectors and without the need for tools.

modular system | trolleys for storage | variations of colour

For prefunctional area we recommend our cocktail tables and stools.

SET_70_LED

Cocktail Table
with additional LED frame
(including rechargeable battery)

Item No.: 020977
[LxWxH]: 700 x 700 x 1050 mm
