# The Dreamy Wedding Buffet by Glass Studio

Glass Studio is **not** a glass factory

It is a “**Boutique factory**” specializing in glass dinnerware for professional use.

A leader in the category, Glass Studio has been serving the hospitality market for 15 years now. Our aim is to create “gift boxes” for the food that add value to the offering of a restaurant and conform to professional kitchen requirements:

- Durable products (high resistance to breakages and chipping).
- Colors that are fused into the glass (no scratching etc) with no Lead or Cadmium release.
- Products compatible with all modern kitchen appliances (90°C/200°F dishwashers, 120°C/250°F preheating chabers, tested for use in microwave ovens at 800W for 10 minutes).
- Powder coating on metal stands is resistant to flaking and withstands any impact up to 30 ft force. Resistance to scratching is the same as that of a stainless steel surface. Clean metal parts with damp cloth only, do not use detergents containing caustic soda or chlorine dilutions.

We are small enough to adapt to specific environments and big enough to be able to handle our luxury clients professionally and exclusively. What we aim for is a **plate that adds value**, not simply function. Dinnerware that is handmade, authentic, premium and sexy; dinnerware that will make your food presentation look special and unique, sophisticated and classy.

Flower Petal Lazy Susan

by Glass Studio

## Flower Petal Lazy Susan

The rotating table that circled the globe...!

Lazy Susan has been with us for ages. The [Washington Post](#) described a 1963 Chinese New Year celebration by highlighting crispy duck, and the Lazy Susan. Now it's time to **take a spin** on your banquets & restaurant with a new ultra modern and state-of-the-art design!

This new **flower petal design** consists of 12 detachable glass petals that fit around a metal rotating base. You can **adjust the diameter** of your Lazy Susan according to your needs: from 75 cm to 90 cm to 100 cm and up to the stunning 123 cm. Just switch the petals to the appropriate length, while keeping the same mechanism for all sizes. You can also **mix it up** by using glass petals of various lengths, creating a **unique** rotating table.

Designed for both **front and back of the house**, the Lazy Susan will not only thrill your guests, but it will also help your stewarding manager, since, due to its detachable petals, it is easy to store, clean and move around.

\*The metal base has a lid with handles making it easy to dismantle the base when needed.

\*The metal base is powder coated and comes in a variety of colors to match your interior.

\*Customize your Lazy Susan to the color of your choice!

The See-through buffet  
by Glass Studio

## The See-through buffet setup

A new buffet concept by Glass Studio combining the same pattern on metal buffet stands with the patterns we use on our buffet serveware.

This complete concept combines three different metal risers and six types of serveware, that are united both in terms of color as well as in terms of pattern in one unified buffet concept.

An idea that is perfect for executive lounges, as well as for a fruit or dessert buffet set up. The pattern of the See-through buffet setup can be customized according to design details prevalent in your interior, creating a bespoke buffet concept for your property.

Glass Studio is **not** a glass factory

It is a “**Boutique factory**” specializing in glass dinnerware for professional use.

A leader in the category, Glass Studio has been serving the hospitality market for 15 years now. Our aim is to create “gift boxes” for the food that add value to the offering of a restaurant and conform to professional kitchen requirements:

- Durable products (high resistance to breakages and chipping).
- Colors that are fused into the glass (no scratching etc) with no Lead or Cadmium release.
- Products compatible with all modern kitchen appliances (90°C/200°F dishwashers, 120°C/250°F preheating chabers, tested for use in microwave ovens at 800W for 10 minutes).
- Powder coating on metal stands is resistant to flaking and withstands any impact up to 30 ft force. Resistance to scratching is the same as that of a stainless steel surface. Clean metal parts with damp cloth only, do not use detergents containing caustic soda or chlorine dilutions.

We are small enough to adapt to specific environments and big enough to be able to handle our luxury clients professionally and exclusively. What we aim for is a **plate that adds value**, not simply function. Dinnerware that is handmade, authentic, premium and sexy; dinnerware that will make your food presentation look special and unique, sophisticated and classy.

# Hipsterize your **Luxe buffet setup**

Allowing light through the solid **wooden buffet riser** is a fantastic idea for a breakfast buffet, all natural and clean.

Light travels through the glass prism creating sculptural effects in your food presentation.

The pale color of the wood, the translucent thick glass and the earthy colors of the glass serveware will create a **unique play of transparency and solids**.

## Hipsterize your Luxe Buffet with Glass Studio

This combination of two earthy and eco-friendly materials introduce **Wood** as the newest addition in our collection.

Combine these elevations with a selection of **colorful glass** plates and bowls for an eye-catching result.

### Set of 3 wooden buffet risers

F1-36-07

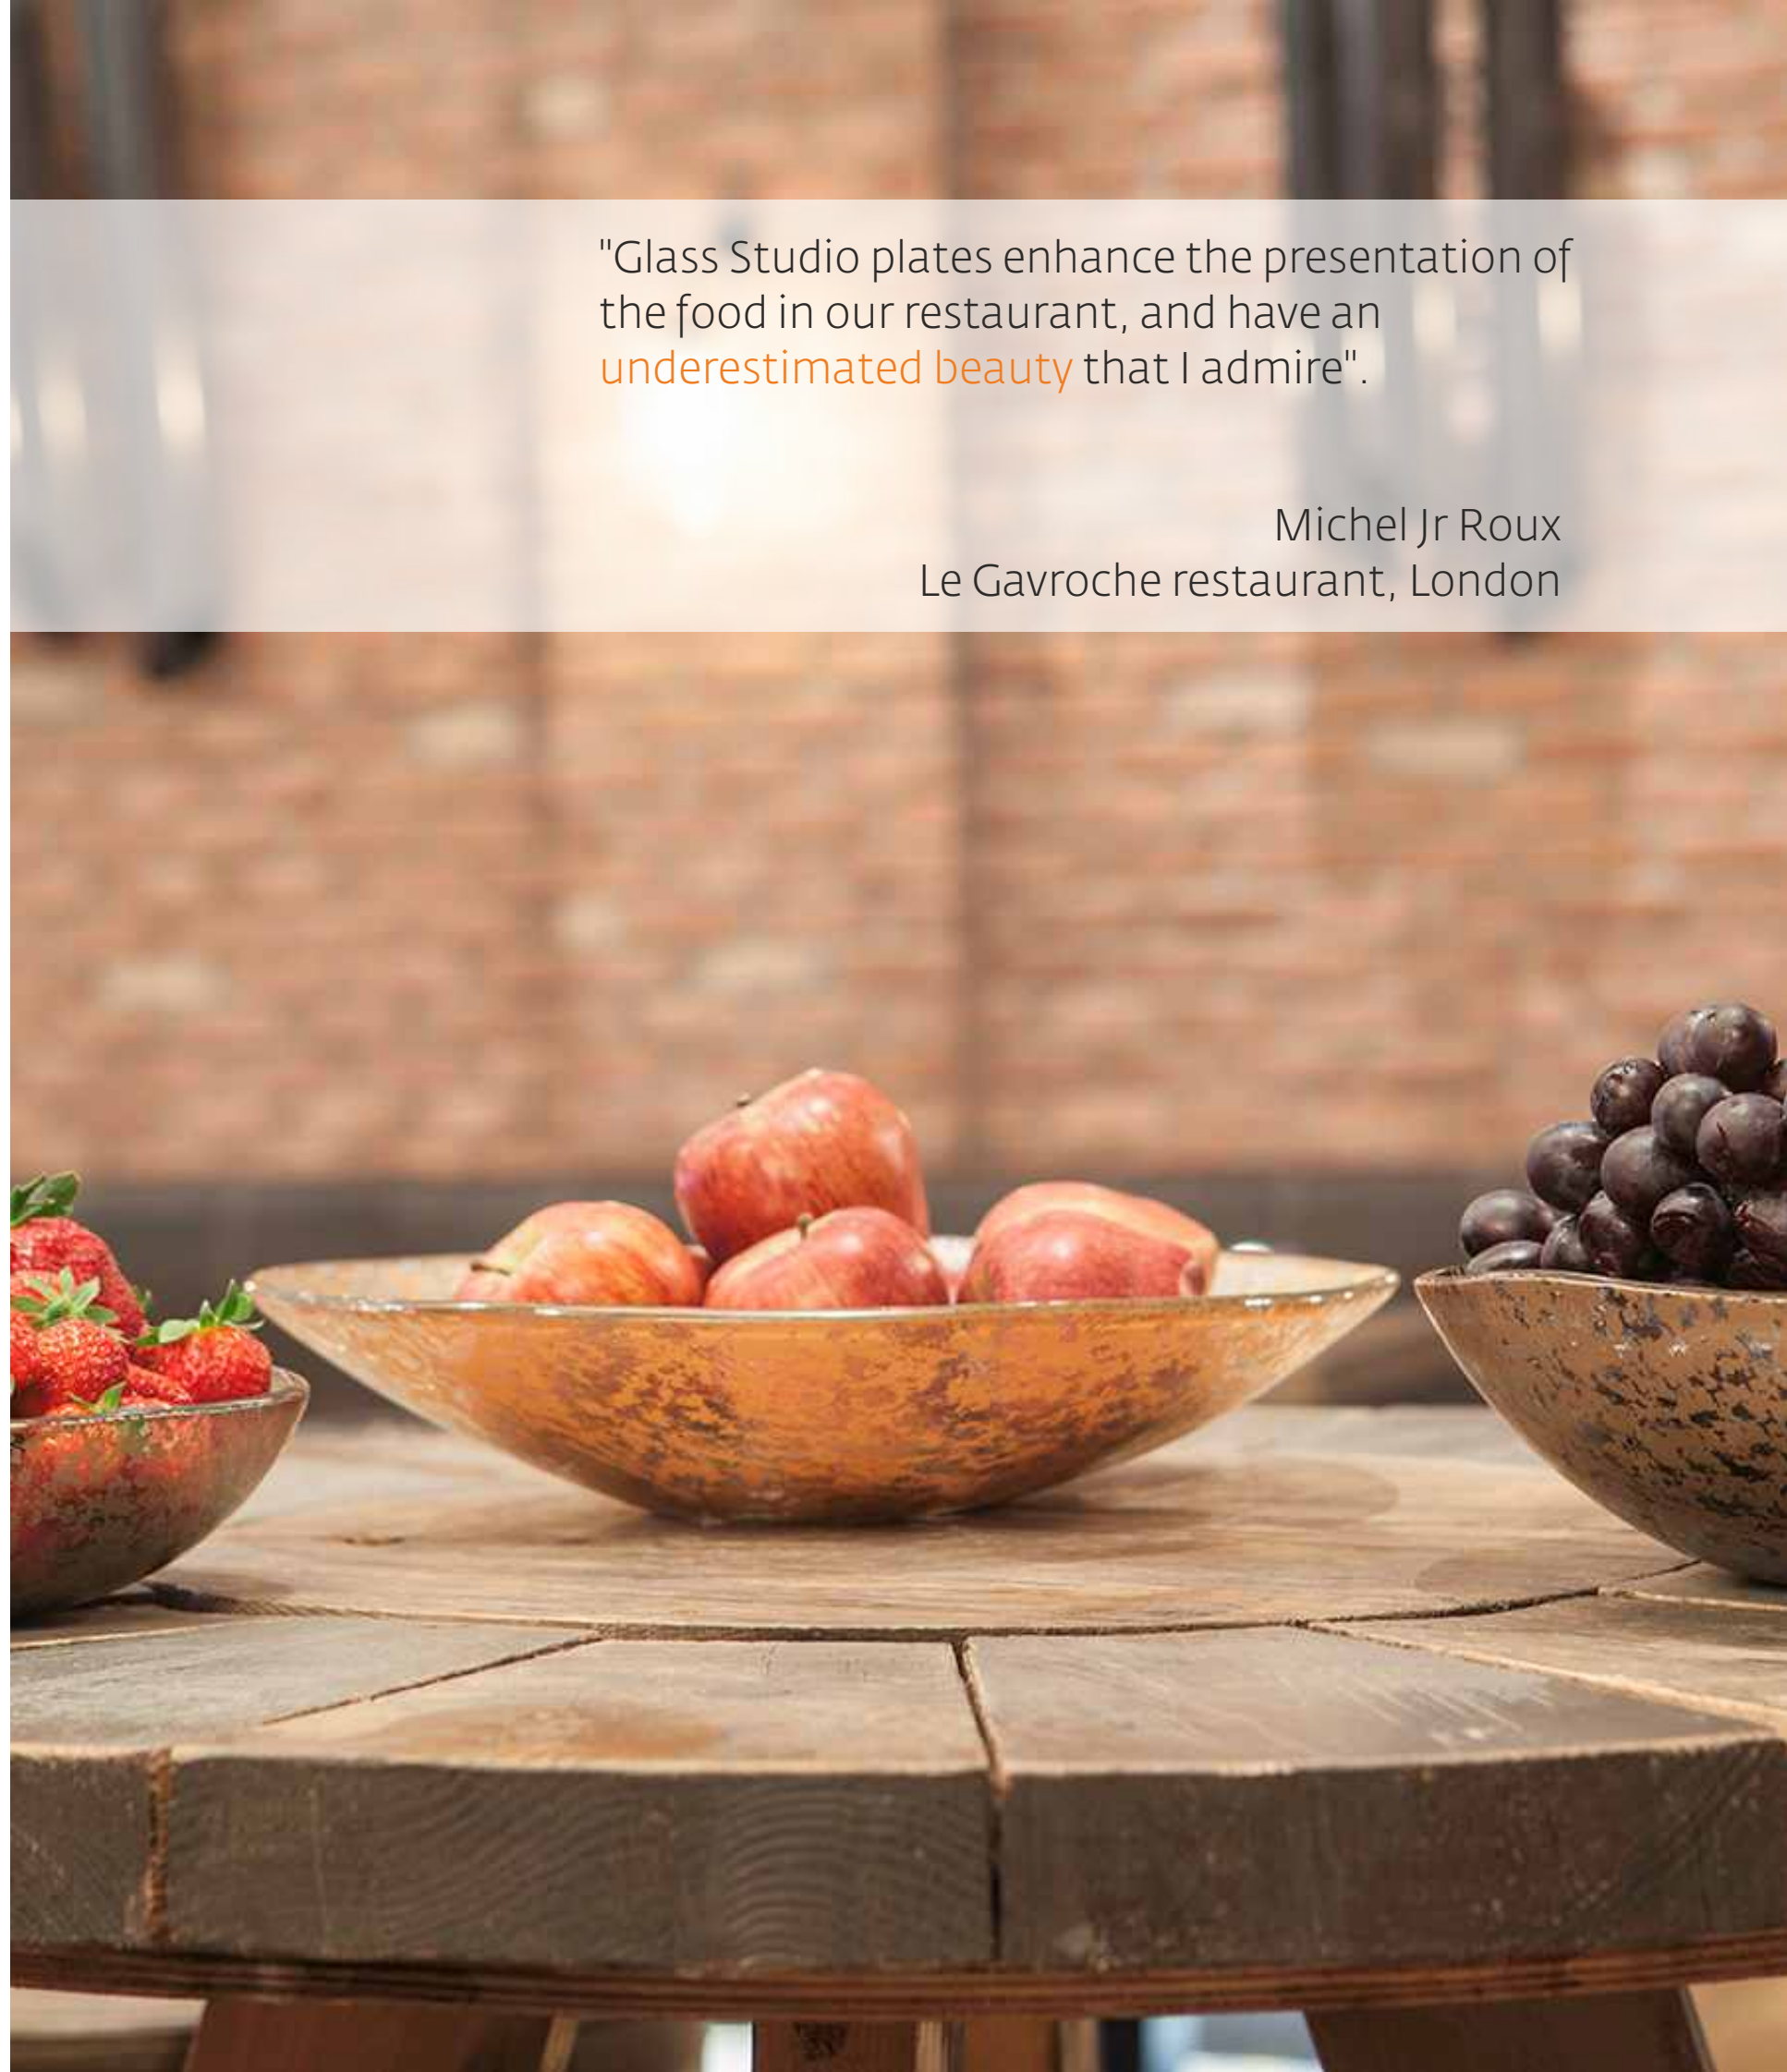

dimensions: 17.5x17.5cm

3 heights: 9.5cm, 15cm, 21.5cm

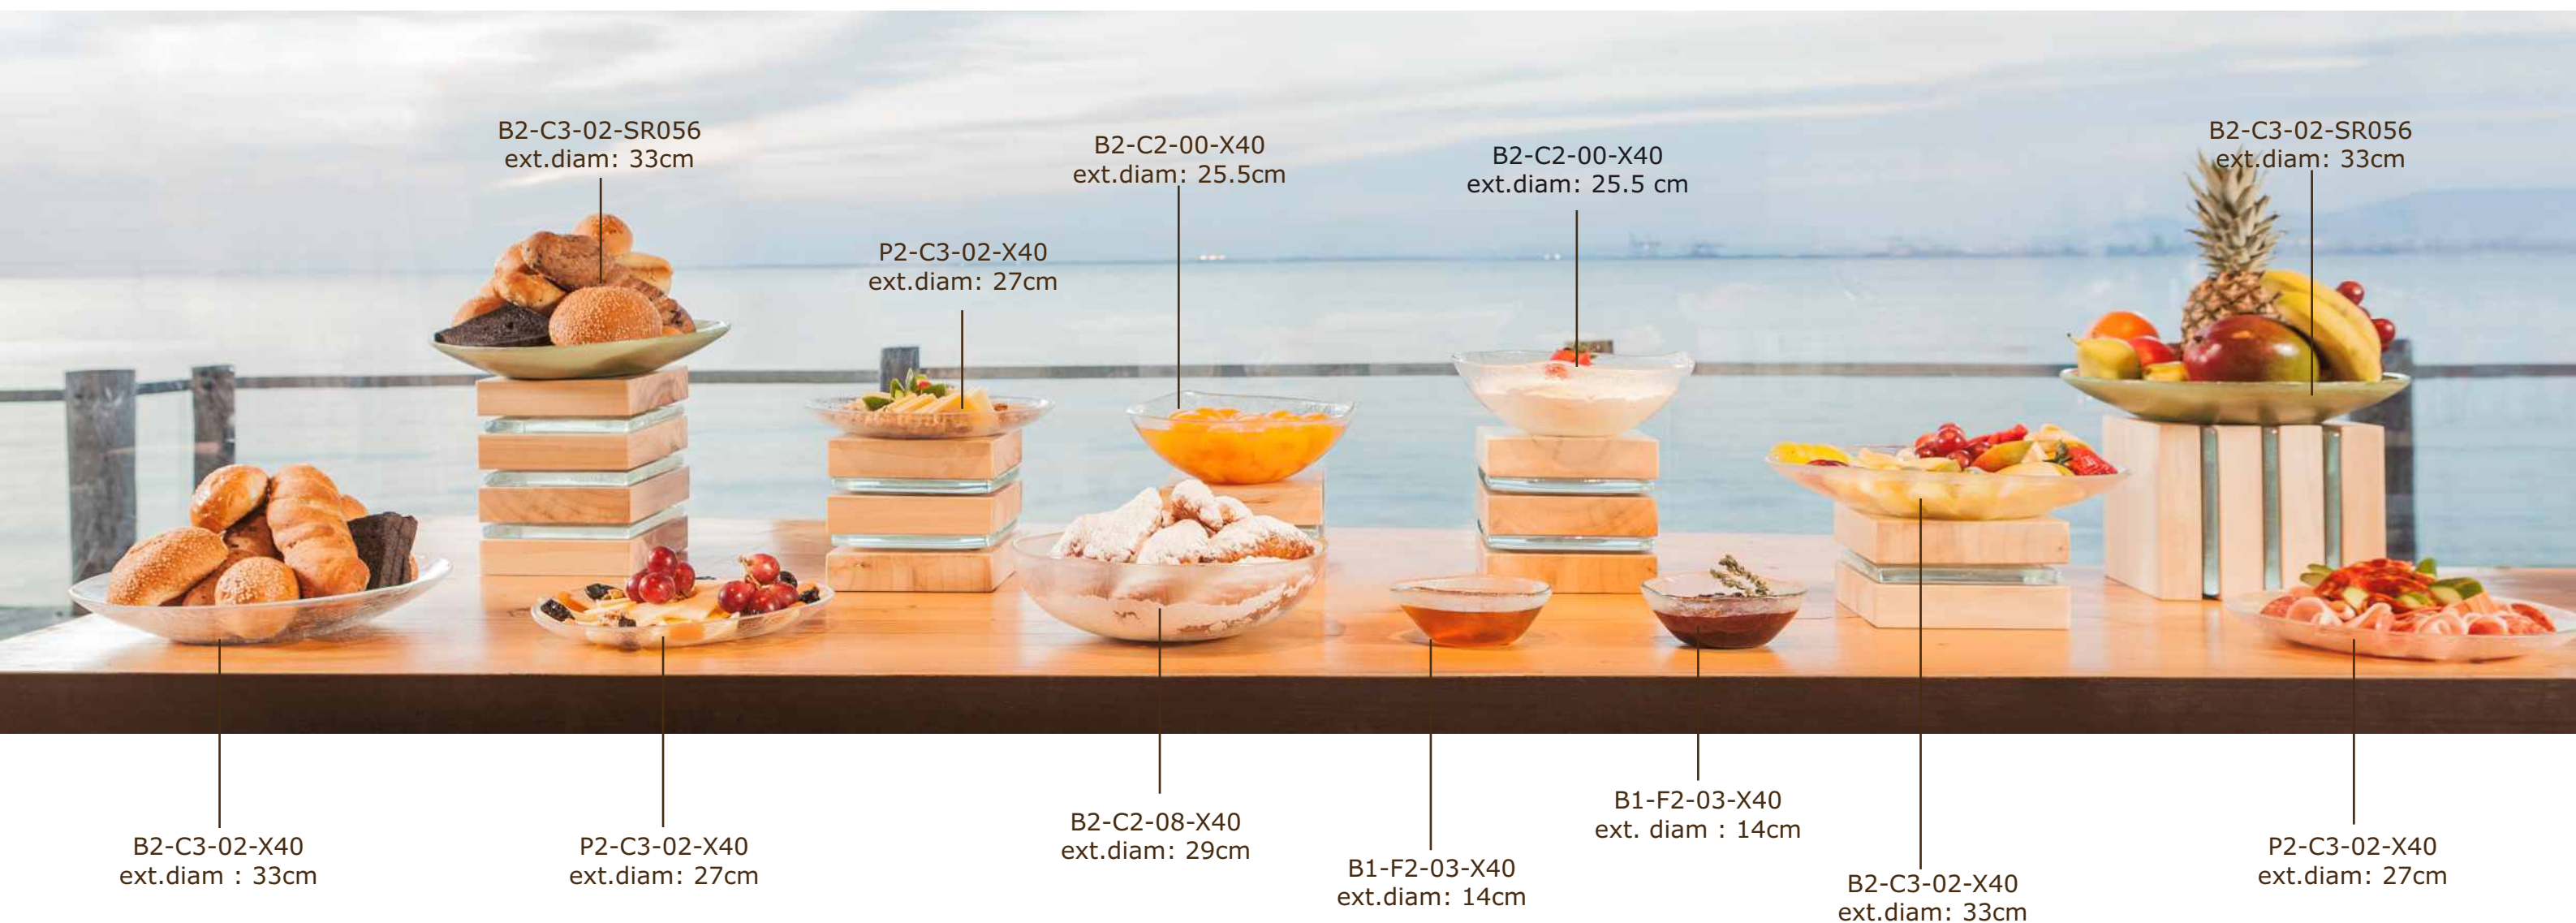

"Glass Studio plates enhance the presentation of the food in our restaurant, and have an **underestimated beauty** that I admire".

Michel Jr Roux  
Le Gavroche restaurant, London

Total Price: 1.407,5€ for all wooden stands included in the photo, as well as **par 3** for all glass plates and bowls

## Glass Studio is **not** a glass factory

It is a “**Boutique factory**” specializing in glass dinnerware for professional use.

A leader in the category, Glass Studio has been serving the hospitality market for 15 years now. Our aim is to create “gift boxes” for the food that add value to the offering of a restaurant and conform to professional kitchen requirements:

- Durable products (high resistance to breakages and chipping).
- Colors that are fused into the glass (no scratching etc) with no Lead or Cadmium release.
- Products compatible with all modern kitchen appliances (90°C/200°F dishwashers, 120°C/250°F preheating chabers, tested for use in microwave ovens at 800W for 10 minutes).
- The wooden buffet risers are covered with two layers of matt, colorless, food safe varnish. Clean with damp cloth only.

We are small enough to adapt to specific environments and big enough to be able to handle our luxury clients professionally and exclusively. What we aim for is a **plate that adds value**, not simply function. Dinnerware that is handmade, authentic, premium and sexy; dinnerware that will make your food presentation look special and unique, sophisticated and classy.
